Psycho-sociological analysis of hazard perception and risk communication

The role of Error Management in safety and risk control at work

Focus of research

➢ Role of **the error management** in organizational resilience

➢ Role of **Proactivity** in workers security behaviour and in Perceived Safety

➢ Role of **Synergy** between the **productive objectives** of the organizations and the **wellness goals** of individuals.

At present

✓Analysis of interdisciplinary specialist literature

✓Study of the Focus Group and in-depth interviews Methodolgy

✓First contacts with **Leeds University** and **Tecnomatic SpA**

Long term goals:

✓ Develop a skills profile consistent with "safety and risk manager"

✓ Promote a Culture of Security in workplaces in terms of:
1. Individual Proactivity
2. Organizational support
